Commando

Commandos are elite fighters most comfortable on the front line - or pointing something big and powerful at it. While most have military backgrounds, Commandos are also found as guerilla fighters or natural talent from fighting. **Enforcers** specialise in brute force and footwork, bringing the fight up close and personal. **Gunslingers** prefer to keep their distance, some specialising in pistols while others prefer to shroud themselves and snipe from afar. **Guardians** put consideration into their armour and shields to keep themselves and their allies safe and on their feet.

Class Feature: Tactical Recovery

Commandos keep themselves in the fight by maintaining rechargeable energy sources which allow them to unleash powerful abilities, then make a tactical withdrawal to resupply and recover their resources before charging back into the fight.

- Commandos have a base 10 hits.
- Commandos can spend hits to power their abilities.
- With 30s of uninterrupted roleplay, Commandos may recover all of their hits.

Determination

- Twice per Mission, through sheer force of will, a Commando may immediately HEAL FULL themselves.
- If they choose, they can do this in response to being reduced to 0 hits.
