- Use the [Engineering Mishap Deck](#) to determine the power level of your Rig and any Mishaps that may occur.
- Inform the Ref when you have done this and what you wish to have constructed

Example:

- *Upon entering a corridor you decide to rig up a trap for anyone who follows you in.*
- You play the Mishap deck and result in a power of 2 with no Mishaps.

  - You are subject to a “YOU: DRAIN” call
