Subject: Tracking/salvage operation requires explorers, engineers, or similar

Message Begins

For the attention of all able mercenaries, explorers, experienced individuals capable of wilderness survival and salvage:

The Craruan Defence Force requires the assistance of the fleet in locating a missing mech, which went off course whilst on patrol in the Craruan tidelands some days ago.

Due to the potential hazards of the area, sending further mechs, air, or spacecraft is ill-advised. The CDF need experienced hands who are capable of travel through the Sirutan wilderness, finding a missing and potentially downed mech, and understanding and ideally retrieving the mech when they find it.

Compensation will be provided.
