

Pending

| Character | Description | Date added |
|---------------------------------|---|------------|
| e.g. Falling Tide | Find the other half of the Kylalian amulet I acquired | 2022-01-03 |
| Master Languid Relaxation, 1413 | Re-establish contact with Volcanostone and recruit them to more permanently aid the Dynasty Siruta. Overall goal is to have a large, Dynasty controlled stick that can be wielded in future negotiations (NB: My scheduling is awkward until we move, so no rush on this) | 2022-05-31 |
| Gathering Flow | Investigate Endeavour, find out what its current status is, what it wants to do, and if applicable, move it to a new location of its desire | 2023-04-05 |

Completed

| Character | Description | Mission |
|-----------------|---|-------------------------------|
| Budding Leaf | Investigate/remove the Mnemonic virus. | Bone Tussle |
| (Tiny Ember | Addendum to Budding Leaf's request: Ember has offered to help arrange use of the Firebrand-TE3 's holodeck. The holodeck currently contains a simulation of Charismatic Wheelhouse hidden within a Vyix IX spa program. Edit: I have a potential plan! The whole problem started because Zero Hiding decided to do an evil playthrough of Overworld, resulting in Impact becoming antagonistic. Therefore, what we do is load up a fresh version of Overworld (without another copy of Impact) and play through making friends with everyone and taking all the good options. Then Impact will see that Leaf isn't so bad after all and leave them alone. | Bone Tussle |
| Manifold Ghosts | Establish a Various Forge on Mytene, potentially using the Space Train to move cargo | Forging Ahead |
